### CDF UNIVERSITY

4038.1

(No. 14 March 2001)

The CDF University is a collaborative effort to provide a learning and training vehicle for enhanced learning and development structure that also establishes a progressive promotional path for leadership and career development. The university's building block format includes:

- General curriculum for all employees focusing on skills, knowledge and abilities that cross all of CDF's program areas.
- Program specific "Schools of Learning" developed around the CDF core functions of Fire Protection, Resource Management and Management Services.
- Program centered Leadership and Executive Colleges to develop managers and leaders in the program areas.
